

# Single vendor graphics support...

## We've put the pieces together.

SYSTEMS Graphics Support Platform provides you with three key elements — graphics support software featuring Template™, CONCEPT/32 minicomputers and support for a wide range of graphics devices. Our single vendor graphics support is the best approach to meet your computer graphics requirements.

Template is the most powerful and comprehensive 3-D graphics software support package available today. With over a dozen device drivers, SYSTEMS Graphics Support Platform provides you with the graphics device independence and

state-of-the-art functionality required for most user applications. To fully support Template, SYSTEMS provides on-site installation, training and customer service.

SYSTEMS CONCEPT/32 minicomputers provide the speed, precision, addressability and software development tools to complement Template and the various graphics devices. To get the complete graphics support picture, call or write the company that put all the pieces together.
